Chapter 134 Source Detection
Anything helps.
Vagrant Walross
Well you're soaking wet.
What happened?
Father Klematis
I fell into a river.
That must have been a disaster.
It's cold outside.
Feel free to warm yourself inside.
Come on in.
So, how are the course of events?
My dear comrade Walross.
I have learned that the evacuation route from the Unified Empire era is functional and without issue.
Is that so.
That differs from the report I received.
According to Routine, it seems the snow thawing had a part in it.
She is rather erudite, hmm?
I heard it was completely flooded in the middle and that passage would be impossible.
Which is precisely why I went to double-check.
With that degree of flooding, it is nothing to a true warrior.
As long as you don't lose your bearings inside the darkness, you will be able to get out in about 20 minutes.
Sometimes you will fail to discern the depth, but if you rely on spirit ~
This is excellent intel.
I am now clearly aware you are the only one capable of pulling it off.
Now, now, come and have a seat.
Why don't we focus on the operation?
You bear the greatest might among our shadow warriors.
It would provide us a highly strategic advantage to be able to get it behind enemy lines.
Regarding how to use a pawn like you, I wish to decide while we discuss about the tea.
While we enjoy a drink like warm black tea.
Lore-kun,
the tea.
Go ahead and fetch it yourself.
I am heading out to buy some ceremonial wine.
I will be back later.
SHUT
Do you think I know where the tea leaves are?
...Hmm.
It appears she hates me.
You don't have any idea why?
...Still, the "greatest might", you say.
I have so many that I'm not even sure which may be the possible reason.
Klematis, it's likely just you.
Only you would value me so highly.
Now, that youngster "Löwe"
is far more powerful than I.
The passage of time is truly cruel, is it not?
Haven't you said something about remaining in active duty your entire life?
Well even now, you're more than enough of a beast.
I hate to sound like an old man, but...
I'll keep it up as long as I'm spry enough over the next 10 years.
But that aside, you help me search as well.
If you are looking for the tea leaves, they are in the drawer there.
And how would you know?
I sometimes borrow them.
So you'd come in to steal, then.
It gets chilly in the winter, after all.
You are in the presence of the Goddess.
Don't blame me if you go to hell.
Exactly how many people do you think I have slain?
You tell me, Walross.
You are extraordinary.
I clearly see why you are hated now.
I was merely joking.
Do feel free to laugh.
Did you have one too many?
Sister Lore
...Tell that to this bottle,
since it won't stop loving me...
Mercenary Schritt
So you did have one too many, correct?
I thought I already told you to go home.
Ceremonial wine?
Master Barkeeper Wolff
Lore,
are you sure you wish to buy such an important item here?
I only have cheap offerings.
Stallholder Gazelle
As long as one is pious, material value is irrelevant.
Such is Father Klematis's belief.
Klematis is quite a smooth talker, isn't he?
He just wants to save money, doesn't he?
Ridiculous,
this is a ceremony for the National Foundation Festival.
We cannot use something flagrantly cheap.
Shall I offer you the cheapest I have?
But didn't you say that material worth is irrelevant?
ドン
You're insane, the lot of you.
Despite knowing that in two days time, we'll probably be dead.
...Is he drunk?
Seems like it.
Even though that one drunkard outside is already a handful.
Say, Gazelle,
the majority of one's life is spent for their daily lifestyle.
If you don't handle this sort of thing properly, you'll have regrets when you don't die.
At the very least, I've personally had many regrets.

I have to stay home everyday to care of my sick mother, so I pass the time translating for fun. I am happy you paid off your tab,
That
Please let me take a look at those.
Quickly.
Sure,
but why?
I truly do sense mana within.
This must be Pursuit Magic.
Wolff,
Gazelle,
battle formations, at once.
That's impossible ...
They used the silver as a catalyst to skillfully conceal the mana within.
It is understandable for you not to notice.
The other party is quite the master.
We have been detected.
Frieren-sama, what is the matter?

Frieren won't be around next week.
